

4th International Symposium on Vaccines Tentative Program

Wednesday, April 6, 2016

12:00-17:30

Hall 2

Chairpersons: Claire Dwoskin, Chris Exley

Chris Exley, UK	Introduction	12:00-12:20
Jerome Authier, France	Positron emission tomography of the brain in patients with alum-induced macrophagic myofasciitis	12:20-12:40
Josette Cadasseau, France	Low concentrations of aluminium hydroxide adjuvant forming limited size aggregates selectively induce long term neurotoxicity and increase cerebral Al content in mouse	12:40-13:00
Matthew Mold , UK	Cellular uptake of aluminium adjuvants	13:00-13:20
Emma Shardlow , UK	Physico-chemical properties of aluminium adjuvants	13:20-13:40
Panel: L. Tomljenovic, Canada Chris Exley, UK Josette Cadasseau, France	<ol style="list-style-type: none"> 1. Why do you think that the authorities are trying to hide the truth? 2. What is the objective evidence that HPV vaccination is not justified? 3. What do you think, are the mechanisms by which vaccine can induce autoimmunity? 	13:40-14:30
Coffee break		14:30-14:50
Lluis Lujan, Spain	New insights in ovine ASIA syndrome: Clinicopathological changes in experimentally induced animals	14:50-15:10
Darja Kanduc, Italy	Molecular mechanisms in vaccine induced autoimmunity	15:10-15:30
Mark Geier, USA	Quadrivalent human papillomavirus vaccine and autoimmune adverse events: a case-control assessment of the vaccine adverse event	15:30-15:50
Orit Hamiel, Israel	Primary ovarian failure and HPV vaccine	15:50-16:10
Coffee break		16:10-16:30
Osamu Hotta, Japan	Chronic fatigue syndrome following human papilloma virus vaccination: is latent epipharyngitis to blame?	16:30-16:50
Luis Javier Jara, Mexico	Severe cases of ASIA syndrome	16:50-17:10
Luísa Eça Guimarães, Portugal	Vaccines, adjuvants and autoimmunity	17:10-17:30
